BUILDING NETWORK  
& BYLDIS INVITES YOU  
TO ATTEND

# PREFAB REALITY SYMPOSIUM 2018

3 October 2018  
Danish Architecture Center  
at BLOX

DESIGN FREEDOM  
AND A SUSTAINABLE  
ECONOMY WITH PREFAB  
CONSTRUCTION

# Invitation

We are pleased to extend an invitation to attend  
BYLDIS PREFAB REALITY SYMPOSIUM 2018  
at Danish Architecture Center at BLOX.

The symposium, which targets developers and  
Scandinavian Architects, represents a unique opportunity  
to hear about cutting-edge design and sustainable  
economy, as well as to exchange knowledge about the  
latest advances in prefabricated solutions.

Meet an exciting range of speakers:

Diederik Dam (Dam & Partners Architecten)

Les Postawa (Thornton Tomasetti)

Han Blom (BYLDIS)

og Mads Kaltoft (Schmidt Hammer Lassen Architects)

# Preliminary programme

- 12:30 - 13:10 Light lunch
- 13:20 - 13:30 Welcome, Building Network
- 13:30 - 14:00 Speaker Diederik Dam,  
Dam & Partners Architecten
- 14:00 - 14:30 Speaker Han Blom,  
BYLDIS
- 14:30 - 15:00 Speed dating with speakers  
and networking with participants
- 15:00 - 15:30 Speaker Les Postawa,  
Thornton Tomasetti
- 15:30 - 16:00 Speaker Mads Kaltoft,  
Schmidt Hammer Lassen Architects
- 16:00 - 16:30 Speed dating with speakers  
and networking with participants
- 16:30 - 18:00 Networking on the rooftop terrace  
with wine, beer and snacks

KEYNOTE SPEAKER

# DIEDERIK DAM

DAM & PARTNERS  
ARCHITECTEN

## Design and quality materials

Dam & Partners Architecten is known for its use of high-quality prefab materials in its buildings, just as the practice has developed its own architectural vision and style.

Dam & Partners Architecten is behind various buildings in Holland, including Hourglass in Amsterdam and the tallest building in Benelux, Zalmhaven Tower, which is under construction in Rotterdam.

Architect Diederik Dam will give a presentation especially for the symposium based on these two buildings to describe the firm's experiences with pre-fabricated solutions and how quality, innovation and design freedom can surprise and cause excitement.

The presentation will be held in English.

KEYNOTE SPEAKER

**HAN BLOM**

BYLDIS

## Design freedom with prefab construction

The Dutch concrete supplier BYLDIS will present innovative solutions and new opportunities for design freedom with precast concrete products.

BYLDIS' goal is to create high-quality precast concrete products and to reduce construction times.

BYLDIS' business development manager in Scandinavia, Han Blom, will talk about, for instance, experiences from the ambitious construction project on London City Island, where BYLDIS succeeded in creating a landmark in London's river landscape and in reducing construction times significantly when it erected 1,750 apartments and 20,000 m<sup>2</sup> of office space on the island.

The presentation will be held in English.

KEYNOTE SPEAKER

# LES POSTAWA

THORNTON TOMASETTI

Simple and elegant  
design solutions

The American engineering giant Thornton Tomasetti is world famous for its work with the design of spectacular high-rise buildings and skyscrapers, one of which is so far to be the tallest building in the world, Jeddah Tower, being over one kilometre tall and under construction in Saudi Arabia.

The principal and director of Thornton Tomasetti in Great Britain, Les Postawa, will provide a number of examples of how the engineering firm has helped developers and consultants highlight their designs by using simple techniques and elegant constructions.

Les Postawa will also discuss the environmental advantages that can be achieved with prefab constructions, as well as talk about the exciting knowledge that Thornton Tomasetti has gained from its ongoing mapping of sustainability.

The presentation will be held in English.

KEYNOTE SPEAKER

## MADS KALTOFT

SCHMIDT HAMMER  
LASSEN ARCHITECTS

Skyline sculptures attract  
immense attention

Schmidt Hammer Lassen, one of Scandinavia's most reputable architectural firms, is known for its eye-catching, buildable high risers that interplay with their surroundings, with emphasis on welfare, aesthetics, light and sustainability.

Partner and architect Mads Kaltoft will share his experiences with designing high-rise buildings using prefabricated facades, including the prize-winning concert, conference and hotel complex Malmö Live.

Kaltoft will describe the challenges encountered when drawing the majestic Dahlerup Tower in Carlsberg City District but also in the effort to receive strict international sustainability certification for construction of a spectacular, 188-meter-tall office tower in Warsaw's financial district.

The presentation will be held in English.

# Registration

BYLDIS PREFAB REALITY SYMPOSIUM 2018 is free of charge. The half-day event will begin with a delicious light lunch and conclude with networking for symposium participants on the Dansk Architecture Center's rooftop terrace, where wine, beer and snacks will be served.

Register via email if you would like to participate. Please provide your contact information so we can reserve a spot immediately for you.
